

"Round the great dial of the year
The Seasons went and struck the quarters,
Whilst the swift months, like circulating hours,
Told the twelve changes by their changing flowers."

FIRST EDITION.

1888.

TWENTY-FIVE THOUSAND.

BARR & SUGDEN'S

AUTUMNAL
DESCRIPTIVE CATALOGUE

OF

BULBS AND PLANTS

FOR

WINTER, SPRING, AND SUMMER FLOWERING.

BARR & SUGDEN,
12, KING STREET, COVENT GARDEN, LONDON, W.C.

PRESENTED WITH BARR AND SUGDEN'S COMPLIMENTS.

CONTENTS.

Abourea, <i>hardy climber</i>	23	Dinner Table Centres	35	Netting, Shading, and Frigi Domo	30

BARR & SUGDEN'S FLORAL ALBUMS, 4 vols., super-royal.—These contain upwards of 5,000 coloured plates of annuals, perennials, stove and greenhouse plants, ferns and coloured-foliage plants, bulbous and tuberous-rooted plants, &c. The plates of ferns and foliage plants are from the published works of E. J. Lowe, Esq.; a great many of the other plates have been collected from the most reliable and recent illustrated floral and botanical works, English and foreign; the remaining plates are from older works, so that the Albums contain many illustrations of rare and scarce plants, interesting both to the Florist and the Botanist; and we may state that we are continually adding plates of new plants. The Albums are kept at our warehouse as books of reference for those who can make it convenient to call.

SPECIAL NOTICES.

FIVE PER CENT. allowed on all payments made within one month from date of invoice, and CARRIAGE allowed as under on orders amounting to 21s. (except in the case of orders for Fruit and Forest Trees, for Solis, Wirework, Plant Cases and Stands, Warner's Garden Engines and Water Barrows, Flower Boxes, Jardinetts, and for Terra Cotta, Rustic, China, and Glass Goods).

To any principal Railway Station in England and Wales; to Edinburgh, Glasgow, and to any principal Station on the Caledonian, North British, and Scottish Central Lines; to Dublin and Belfast by the Great Northern Rail, and to Bristol or Holyhead by Great Western Rail en route for Cork, Limerick, and Waterford; or to the three last towns by Steamboat direct, but only so if requested, as we prefer the route by Bristol or Holyhead, as being more expeditious.

NO CHARGE MADE FOR ANY PACKING OR PACKAGE UPON WHICH WE ALLOW CARRIAGE, EXCEPT IN THE CASE OF PLANTS. UPON THESE AND THE EXCEPTIONS ENUMERATED ABOVE, A SMALL CHARGE IS MADE, AND IF THE MAT, HAMPER, OR CASE IS RETURNED, HALF-PRICE IS ALLOWED.

Best Carriage has been so frequently charged to our Customers after the same had been paid by us to the Railway Companies here, that it has led to considerable inconvenience and loss. We have therefore for the future decided to allow the carriage at settlement, instead of paying it in London, except in cases where a remittance accompanies the order. Post-office Orders to be made payable at King-street Post-office, Covent Garden, W.C. All Cheques to be crossed "The Union Bank of London." Any amount may be paid in Postage-stamps.

Those with whom we have not previously had business transactions are respectfully requested to send with their order a REMITTANCE or a LONDON REFERENCE. All Foreign and Colonial orders, to ensure attention, must be accompanied with a remittance, or a draft on a London agent.

POMPON, OR MINIATURE HYACINTHS.

The varieties enumerated under this heading are dwarf in their growth, producing neat compact spikes of bloom, and may be grown in very small glasses, or small fancy pots; also in masses of from six to eighteen in old china, crystal dishes, jardinetts, and any other elegant contrivance for the drawing-room; they may also be associated with *Scilla sibirica*, *Crocus*, *Snowdrops*, *Tulips*, *Narcissus bulbocodium*, and other bulbs. In such articles they will be found to succeed best in "our Prepared Cocoa Fibre and Charcoal" (see p. 33), and the surface covered with nice green carpet moss, or *Lycopodium denticulatum*.

-----	---------------------------	---	---	-----	-----------------------------	---	---

EARLY FLOWERING DWARF WHITE ROMAN HYACINTHS.

150 These, if planted early in September, and gently forced, will be in bloom in November; they should be grown in groups of from 3 to 12, in 4 to 7 inch pots; 25s. per 100; 3s. 6d. per dozen.

NAMED HYACINTHS FOR GLASSES OR POT CULTURE IN-DOORS.

THE * INDICATES THE VARIETIES BEST ADAPTED FOR GROWING IN THE NUMEROUS ELEGANT CONTRIVANCES FOR THE CULTURE OF THE HYACINTH; THEY ARE ALSO THE BEST ADAPTED FOR FORCING. IT MAY NOT BE OUT OF PLACE TO REMARK HERE, THAT THOUGH THE HYACINTH MAY BE FORCED, IT IS SELDOM THAT FINE FLOWERS ARE PRODUCED UNLESS THE FORCING IS OF A VERY GENTLE CHARACTER, AND THIS SHOULD NEVER BE ATTEMPTED TILL THE POTS ARE FULL OF ROOTS.

THE † DENOTES THE DOUBLE VARIETIES; THESE, WITH VERY FEW EXCEPTIONS, SHOULD NOT BE GROWN IN GLASSES; THEY CANNOT BE RECOMMENDED FOR FORCING, OR FOR ANY OF THE MANY ARTIFICIAL MODES OF CULTIVATING THIS FAVOURITE FLOWER.

THE MOST SUITABLE VARIETIES FOR EXHIBITION PURPOSES ARE MARKED "Ex."

In confirmation of the opinion we have annually expressed of the general superiority of single over double Hyacinths, we may state that the finest Hyacinths exhibited last Spring at both the Metropolitan and Provincial Flower Shows were single; it is therefore our practice, when the selection is left to us, and the bulbs are to be grown in glasses, jardinetts, and the like, to send single varieties only, but if they are required for pot culture, we send both single and double.

In accordance with our annual custom we have rejected from our list several inferior kinds, and replaced them with varieties, the superior excellence of which has been established beyond doubt.

OUR OWN SELECTION OF HYACINTHS FROM THE FOLLOWING SPLENDID COLLECTION,

Embracing only such varieties as we know to be most worthy the attention of amateurs.

The Paper White and Double Roman Narcissus are best suited for early flowering; they should be potted very early, and, if possible, bloomed before Christmas, along with the Roman Hyacinth.

GARDEN NARCISSUS.

Exceedingly effective and very cheap desirable spring flowering bulbs. They succeed in almost any soil, and when planted in marginal lines, or grouped in shrubberies and woodland walks, they are very showy. N. Bulbocodium and N. Nannus make pretty edgings and beautiful pot plants, also N. Biflorus, N. Bifrons, and N. Muzart Orientalis. Three to six in a pot.

JONQUIL NARCISSUS.

These are graceful and pretty, and are much prized for their fragrance. They are valuable for the decoration of the conservatory, sitting-room, and flower garden; three or four roots should be planted in a four or five-inch, and five or six in a six-inch pot, and should not be forced till the turn of the year.

THE TULIP.

For Winter and Spring gardening, Early Flowering Tulips, double and single, are indispensable. Their extreme hardiness, their certainty of blooming, the absence of all difficulty in their cultivation, combined with their brilliant and diversified colours, distinctly entitle them to a preference; while their cheapness enables every lover of a flower garden to plant them extensively.

Those who may only have small shaded town gardens need not be afraid to plant Tulips freely, as they succeed well even in such positions, and remain longer in bloom than if grown in situations where they would be exposed to the influence of the sun.

EARLY SINGLE TULIPS.

Of Selfs there are beautiful scarlets, crimsons, whites, and yellows. Of party-colours, there are snow white grounds, striped and feathered with purple, violet, crimson, rose, puce, and cerise; and yellow grounds, with crimson, scarlet, and red flakes and feathers; so that only those who have cultivated the varieties of Early Single Tulips systematically can form any just idea of their beauty.

PAXTONIAN EARLY SINGLE TULIPS.

FOR OUT-DOOR CULTURE IN BEDS, GROUPS, RIBBONS, RUSTIC BASKETS, VASES, FLOWER BOXES, ETC.
OUR OWN SELECTION.

The following splendid varieties being cheap and beautiful, we especially recommend them for the purposes above named. They are, however, equally suitable for pot culture.

For additional varieties see next section.

448 GESNERIANA TULIP, OR TULIPA SINENSIS HORTENSIS.

This species has an immense *crimson-scarlet* cup, with a large blue centre, and is without exception the showiest of all Tulips. When well grown it is somewhat taller than the other varieties, and is therefore well adapted as a back-line in ribbons, or in lines or groups in front of shrubs; its rich dazzling colour makes it invaluable wherever distant effect is a desideratum. 7s. 6d. per 100, 1s. per dozen.

EARLY SINGLE TULIPS.

The following are specially recommended for in-door culture, either in pots or jardinetts, and for very select beds in the flower garden. Amateurs desirous of having a named collection of Early Tulips would do well to purchase one each of this splendid assortment, and also of those enumerated above. The entire collection, from 410 to 532, 30s.

For additional varieties, see Paxtonian Section, page 8.

EARLY DOUBLE TULIPS.

The leading features in these are their massive forms, brilliant, diversified, and beautiful colours; admirably adapting them for beds on the lawn, terrace, or flower garden, for edgings to Rhododendrons, Azaleas, and Roses, and for planting in the flower and shrubby borders in groups of three or more.

The * indicates the varieties best adapted for pot culture.

LATE-FLOWERING SINGLE TULIPS.

Amateurs formerly cultivated this Tulip for the individual beauty of the flower, but now it is more generally used as a succession to the Early Single Tulip, as it blooms in May.

PARROT TULIPS.

The Parrot Tulip is singularly picturesque in appearance; its flowers are large and the colours brilliant, so that when planted in flower borders, and the front of shrubberies, the effect is very striking. When grown in hanging baskets they may be made to impart an orchidaceous effect by arranging them so as to cause the large gay flowers to project from between the wires.

CROCUS.

For in-door decoration the Crocuses properly managed is valuable; and, as one of Flora's first heralds of Spring, for the flower garden it is indispensable. When used two or three lines deep as an edging to beds, or to form broad marginal lines in distinct colours, or in various colours blended, the effect is remarkably

striking. We have seen long, broad, wavy bands of golden yellow, of pure white, and of deep purple Crocus, also fancy devices of these, and groups and masses of 10 to 1,000 bulbs, expand with such effect in the mid-day sun, as to elicit the greatest admiration. In lawns and pleasure parks, where the grass is not sown very early, the Crocus and Snowdrop planted in scrolls or other fancy designs are frequently introduced with remarkably fine effect; while in wildernesses and woodland walks they are universal favourites as associates of the sweet-scented violet, the primrose, and the oxlip.

The depredations of mice on the Crocus may be prevented by placing pieces of the Crown Imperial bulb near where the roots are planted.

WINTER ACONITE.

A charming little plant with golden blossoms, which expand simultaneously with the Snowdrop.
651 Winter Aconite, *golden yellow*, 6d. per dozen, 3s. 6d. per 100, 30s. per 1000.

IRIS.

The flowers of these are exceedingly beautiful, and their colours rich and varied. When planted in masses in the flower and shrubbery borders, or amongst beds of American plants, they are extremely effective. When planting, surround the bulbs with sand, and avoid wet situations.

PAXTONIAN ENGLISH IRIS, IN COLOURS, FOR BEDDING OR MASSING.

These have been selected for producing *en masse* a striking combination of rich and effective colours.

IXIAS, SPARAXIS, TRITONIAS, AND BABIANAS.

UNDER GLASS THEY FLOWER IN MARCH AND APRIL, OUT OF DOORS IN MAY AND JUNE.

THESE are amongst the most graceful, attractive, and beautiful of Cape flowering bulbs. They differ considerably in style and habit of growth, but, being closely allied, they require the same cultural treatment.

FOR IN-DOORS. Plant in October or November five or six bulbs, in a five-inch pot, using a compost of turfy loam, peat, or leaf mould, mixed with clean sand. Make the soil moderately firm about the bulbs, then place them in a cold pit or frame, plunging the pot in ashes, and withhold water till the plants appear, then give sparingly at first. The lights should not be kept on except during wet or frosty weather.

FOR OUT OF DOORS. Choose a light loamy soil with a due south aspect (the hotter the situation the better), and if possible backed by a wall or greenhouse. Plant the bulbs six inches deep and four inches

apart, surrounding them with an inch of sand. Two or three inches of dry leaves laid on the surface will be sufficient winter protection.

There are but few situations in this country where these plants succeed well entirely out of doors. No one need, however, be deprived of a bed of such superb flowers if they will only plant three bulbs in a four-inch pot; treat as recommended for in-door culture; then in April or May remove them from the frame, and plunge the pots where intended to bloom.

THE RANUNCULUS.

A truly elegant and beautiful flower, combining with the most diversified shades and colours an exquisite symmetry and compactness possessed by few plants. As a cut flower it is quite as useful as the Rose, while for bedding, massing, and edging, either in separate or mixed colours, the effect produced is magnificent; its close habit of growth and rich distinct colours make it all that the most refined taste could desire for ribboning or any other style of Spring gardening.

CULTURE.—For successional blooming, plant the Turban varieties from October to January, and the Persian from January to March. The Ranunculus succeeds best in a somewhat moist soil, but any soil, properly prepared, will grow it to perfection. Plant on a dry day, when the soil works kindly; draw drills two inches deep and five or six inches apart, sprinkling a little sand at the bottom of the drill. The tubers should be firmly pressed into the soil, with the claws downwards, and covered with sand, then with soil, keeping the crown two inches under the surface; during severe weather, cover the bed with dry litter, leaves, or old tan; *but the covering must be removed before the plants appear.* In April and May, during dry weather, water the beds freely twice or thrice each week, and when the flower-bud appears water daily, and continue doing so while the plants are blooming; but be careful to wet the foliage as little as possible.

The value of Ranunculus roots is so trifling, that we should recommend (except in the case of choice named varieties) immediately they have done blooming, to dig up the beds and put in the summer and autumn blooming plants.

PAXTONIAN DOUBLE PERSIAN RANUNCULUS.

These are composed of varieties we have selected from several extensive collections, on account of their large handsome flowers, brilliant colours, and adaptation for massing, bedding, and ribboning.

THE ANEMONE.

Amongst the diversified forms of floral beauty which enrich the flower garden, from the first opening blossoms of Spring to the last rose of Summer, the Anemone takes a very prominent place, possessing many points of interest and special characteristics of colour. Its blossoms are of the most dazzling hues of scarlet, purple, and blue, self coloured and striped. The foliage is elegantly serrated, and the growth

SCILLA AND MUSCARI.

S. Amœna and S. Sibirica, are of the most lovely azure blue, growing three inches high; and flowering as they do in March, they make exquisite pot plants, and associate admirably with the Snowdrop, Crocus, Hyacinth, &c., in all the elegant contrivances which ingenuity can suggest for in-door decoration; as edgings or for beds, in the Spring flower garden, they are unique. M. Botryoides makes a pretty dwarf edging, growing three inches high. S. Hyacinthoides, and all the other varieties, make excellent groups in the flower border or in beds.

THE FAR-FAMED BELLA-DONNA AND GUERNSEY LILIES.

The flowers of the beautiful Guernsey Lily are brilliant scarlet, and in the sun's rays appear as if spangled with gold-dust. The Bella-Donna Lily is white, flushed with rose purple, very handsome.

These bulbs arrive from Guernsey early in September, with the flower-buds ready to expand, and by the end of the month they are in full bloom. Orders should therefore be given before the 15th September.

THE LILY (*LILIUM*).

Lilies are universal favourites; and being, with few exceptions, perfectly hardy, no one need be without them either in the flower garden, the conservatory, or the sitting-room. Though there are degrees of beauty amongst them, all are worthy of a place in every collection of plants, in or out of doors. The height of each is given in feet.

OUR OWN SELECTION.

L. auratum and *L. candidum* are ready to send out at once, all the other varieties end of October.

	s. d.		s. d.
983 1 each 12 varieties for pot culture, 21/ to 30 0		985 3 each 12 varieties for out-door culture	15 6

		1052 Venustum, orange, 1½ ft.	1 0

THE GLADIOLI.

Too much cannot be said in favour of this really grand genus, which, by successional plantings, may be had in bloom from early in July to Christmas. The Ramosus varieties flower in July and August, and may be planted in January, February, and March. The Gandavensis varieties flower in August, September, and October, and if successional plantings be continued from March to Midsummer, they may be had in bloom even so late as Christmas; and this is of no small importance where cut flowers for vases are in requisition. The late plantings should be made in the reserve flower garden, in masses of three to twelve bulbs. When cold weather sets in these should be lifted with the ball of soil, potted, or put in boxes, and placed in a cool house, such as a vinery, a cold pit, or in a spare room; in fact, anywhere where they will be protected from the frost; and if attended to with water they will blossom as freely as those which had the advantage of being planted earlier in the season. It is worthy of remark that the bulbs do not suffer when so treated.

The great secret of success in growing Gladioli is to plant in a deep soil, well enriched with rotten manure, and to water the plants liberally, when necessary, during dry weather.

EARLY-FLOWERING GLADIOLI, VARIETIES OF RAMOSUS.

For beds, masses, centres of large beds, and groups in the flower and shrubby borders; and for planting amongst Rhododendrons and Azaleas, these are highly recommended.

OUR OWN SELECTION, READY TO SEND OUT END OF OCTOBER.

AUTUMN FLOWERING GLADIOLI, VARIETIES OF GANDAVENSIS.

Ready to send out early in December.

The varieties enumerated under this heading are stately in growth, producing long spikes of the most beautiful flowers; these are alike remarkable for their richness and diversity of colours, ranging from white to rose, from rose to deep crimson, and from crimson to bright orange, flame, and scarlet. For distant effect, in beds or large masses, they are unsurpassed by any flower; while at the same time their beauty will admit of the closest inspection. The two best scarlet varieties to plant in large quantities, and to cut for vases and table bouquets, are Bowiensis and Brenehleyensis, and they may be had in bloom from the 1st of August to the middle of January.

1088 Splendid mixed varieties, 25s. per 100; 3s. 6d. per dozen.

1089 Fine mixed varieties, 17s. 6d. " ; 2s. 6d. "

The following are arranged in Sections for the convenience of Amateurs.

SECTION I.—One each of this Section for 8s. 6d., or one each of our customers' own selection, of not less than six varieties, at the rate of 4s. 6d. per dozen.

In our Illustrated Album of Bulbous Roots (see Notice, page 2) will be found figured most of the following

MISCELLANEOUS BULBS AND TUBERS.

THERE are no doubt many persons who peruse our Catalogue whose practical knowledge of flowering bulbs is limited to Hyacinths, Tulips, Crocuses, Narcissi, Gladioli, Lilies, and perhaps a few others more or less popular. In addition to these, however, there is a vast number of other bulbous and tuberous-rooted plants (the following being merely a selection), of which nothing can exceed the brilliancy, the beauty, and the variety of their flowers, or the elegance and effectiveness of their foliage, and one or other of which at nearly every season of the year is an object of attraction. Their culture cannot by any means be considered difficult, most of the bardier varieties requiring a light porous soil, laying well to the sun, and slightly protected during winter; while those which require in-door treatment should be grown in well-drained pots, in a mixture of leaf soil, loam, peat, and silver sand.

Those who can make it convenient to call at our warehouse, can, through the medium of our Illustrated Album of Bulbous Roots, make themselves acquainted with these interesting forms of floral beauty; while for those living at a distance we shall be happy to make a selection of the roots suitable to the accommodation they may possess, at the prices enumerated, including only the bulbs and roots in this section of our Catalogue. *A few of these are now ready to send out, but a large number of them being still in growth, it will be November before they can be despatched.*

1394 Honorable Jobert, white, a superb plant, 2 ft.	0	9	†BOUSSINGAULTIA, a handsome climbing plant, with graceful racemes of fragrant flowers.		
1395 japonica, rose, 2 ft.	0	6	1426 baseloides, white, deliciously fragrant	0	9
†ANISANTHUS, a charming flower.			†BRAVOA, a handsome plant with beautiful long racemes of penstemon-like flowers, produced in pairs.		
1396 splendens, brilliant scarlet	0	6	1427 geminiflora (twin-flowered), crimson, $1\frac{1}{2}$ ft.	0	9
†ANOMATHECA, a charming little plant, blooming from June to September. In light warm soil it may remain as an edging undisturbed for years; in less favourable situations, plant in April, and take up in November.			§BRODIAEA, very beautiful flowers, succeeding in any light soil.		
1397 cruenta, orange, spotted crimson, $\frac{1}{2}$ ft.	0	3	1428 congesta, bright blue, 2 ft.	0	3
1398 roseum, rose, $\frac{1}{2}$ ft.	0	6	1429 grandiflora, deep blue, 1 ft.	0	3
ANTHERICUM, very ornamental and beautiful.			BRUNSVIGIA, exceedingly beautiful bulbous plants.		
§1399 Liliago (St. Bernard's Lily), white, $1\frac{1}{2}$ ft.	0	9	1430 coranica, purple, 1 ft.	1	6
§1400 Liliastrium (St. Bruno's Lily), white, $1\frac{1}{2}$ ft.	0	9	1431 falcata, purple, 1 ft. ...	1	6
†1401 ramosum, white, 2 ft.	0	9	1432 multiflora, scarlet, 1 ft.	1	6
†ANTHOLYZA, very showy bulbous plants, with long handsome flower spikes.			1433 pumila, red, 1 ft.	1	6
1402 Æthiopica, scarlet, 2 ft.	0	6	§BULBOCODIUM (Red Crocus), an exceedingly pretty and very early flowering low-growing plant, very effective in masses or as an edging.		
1403 Bicolor de Gasperin, scarlet and yellow, 2 ft.	0	6	1434 vernum, purple red, $\frac{1}{2}$ ft., per 100 10s. 6d.; per dozen, 1s. 6d.		
1404 cardinalis, 2 ft.	0	6	¶CALADIUM. This genus embraces some of the most picturesque and beautiful of ornamental foliage plants. Some have remarkably large foliage, and others are conspicuous for their shaded or spotted leaves. Argyrites is a lovely little variety, growing about six inches high, the leaves spotted pure white on a beautiful green ground.		
1405 coccinea, bright scarlet, 2 ft.	0	4	1435 12 in 12 beautiful varieties, named, 21s., 30s., and 42s.		
1406 Duchess, fine orange, 2 ft.	0	6	1436 6 in 6 beautiful varieties, named, 9s., 12s., and 15s.		
1407 fulgens, coppery rose, 2 ft.	0	3	1437 argyrites	1s. 6d. to	2 6
1408 Lord Cochrane, 2 ft.	0	6	1438 other varieties	1s. 6d. to	3 6
§APIOS (Glycene), a rapid growing climber with pink flowers, succeeding in any ordinary soil.			CALLA (Richardia), a valuable plant for the sitting-room, requiring very little management.		
1409 tuberosa, pink, per doz., 4s. 6d.	0	6	1439 Æthiopica, large white arrow-shaped flowers, 3 ft.	9d. to	1 0
§ARUM, picturesque and fantastic looking plants, very desirable for flower borders, rockworks, &c. Crinitum is the only one that requires the protection of a frame in winter.			†CALLIPRORA, a pretty little plant, easily managed.		
1410 arisarium (Friar's-cowl), yellow, $\frac{1}{2}$ ft.	0	6	1440 flava (lutca), yellow, 1 ft.	0	9
1411 cornutum (the green dragon-arum), large brown flowers and handsome green foliage, 2 ft.	0	6	§CALYSTEGIA, perennial climbing convolvulus; the species we quote is the double-flowering variety; very pretty.		
†1412 crinitum, flowers tiger spotted, very long and covered with hair, stem marbled like a serpent, leaves singularly cut, 2 ft.	2	0	1441 pubescens flore pleno, blush	0	6
1413 dracunculus (dragon-arum), flowers brown, large handsome palm-like leaves, 2 ft.	0	6	§CAMASSIA, a strikingly beautiful plant, flowering in spikes, each flower nearly two inches in diameter.		
1414 italicum, flowers yellow, with large lance-shaped green leaves, spotted yellow, 1 ft.	0	6	1442 esculenta, rich purple, $1\frac{1}{2}$ ft.	1	0
1415 maculatum, green foliage, spotted with brown, $\frac{3}{4}$ ft.	0	6	†CANNA. This fine foliage plant has now become indispensable wherever there is any pretension to effective gardening. It is almost hardy, so that on light warm soils it may be left in the ground all winter with a little litter placed over the roots. Its culture from seed is most easy, and by far the cheapest way of securing a good supply. Seed 1s. and 2s. 6d. per packet.		
1416 tenuifolium, curious grass-leaved foliage, flowers brown, 3 ft.	0	9	1443 fine varieties, in roots, 9s., 12s., 15s., and 18s. per dozen.		
§ASCLEPIAS, highly ornamental and beautiful.			CHLIDANTHUS, a handsome flower, with frankincense-like fragrance.		
1417 tuberosa, fine orange-coloured flowers, 1 ft.	1	0	1444 fragrans, fine yellow, 1 ft.	0	6
§ASPHODELUS (King's-spear), ornamental strong-growing plants.			†OOBURGIA, a splendid plant; nearly hardy. In the conservatory it cannot fail to be conspicuous on account of its		
1418 luteus, yellow, 2 ft.	1	0			
1419 ramosus, white, 2 ft.	1	6			
ASPIDISTRA, very ornamental broad foliage plants, nearly hardy.					
1420 elatior, foliage green, 2 ft.	1	6			
1421 " variegata, foliage green, striped with broad white bands, 2 ft.	3	6			
BEGONIA, very ornamental, good sitting-room plant.					
1422 discolor, leaves underneath beautifully veined with crimson, 2 ft.	1	0			
1423 diversifolia, rose, 2 ft.	1	6			
§BELLEVALIA, very interesting.					
1424 spicata, white, 1 ft.	0	6			

	Each—s. d.		Each—s. d.
cluster of drooping long tubular rich-coloured flowers.		1470 mixed, per 100, 10s. 6d.; per doz., 1s. 6d.	
1445 incarnata, scarlet, flesh, green, and yellow, 2 ft.	1s. 6d. to 2 0	1471 major, large purple, very fine, $\frac{1}{2}$ ft., per 100, 15s.; per doz., 2s.	
§COLCHICUM (Autumn Crocus), very showy autumn flowering bulbs.		1472 yellow, $\frac{1}{2}$ ft.	0 6
1446 autumnale, lilac, $\frac{1}{2}$ ft.	0 3	TEUCHARIS. Nothing can exceed in beauty the deliciously fragrant snow-white blossoms of the Eucharis Amazonica. At the International Horticultural Botanical Flower Show of 1866 no class of plants elicited so much admiration as two large pots of this beautiful flower, the plants being covered with hundreds of blossoms. In bouquets the flower is by many more highly prized than the white Camellia, and ladies are especially fond of it for their hair and their dresses. Its culture is simple, where there is a stove or warm greenhouse; and, like the family of which it is a member (Amaryllidæ), by a little arrangement in starting the bulbs, it may be had in flower the year round.	
1447 " album, white, $\frac{1}{2}$ ft.	0 3	1473 amazonica, pots of established roots 3s. 6d., 5s. 6d., 7s. 6d., and 10s. 6d., according to the number of roots in each pot.	
1448 " plenum, lilac, $\frac{1}{2}$ ft.	0 4	§FUNKEIA, very ornamental border plants, some of them with large handsome foliage, others with the foliage beautifully variegated. In summer they all throw up curious looking spikes of bell-shaped flowers.	
1449 bizantinum, lilac, $\frac{1}{2}$ ft.	0 3	1474 lancifolia, flowers lilac, $\frac{1}{2}$ ft.	0 9
1450 striatum, white and rose, $\frac{1}{2}$ ft.	0 4	1475 Sieboldi, flowers lilac, 1 ft.	0 9
1451 variegatum, white and lilac, $\frac{1}{2}$ ft. ...	0 4	1476 " alba, flowers white, 1 ft.	0 9
†COMMELINA, very beautiful free-flowering plants; in light soils they simply require a slight winter protection.		1477 undulata folia variegata, fine broad mottled foliage, $\frac{1}{2}$ ft.	1 0
1452 cælestis, bright blue, $\frac{1}{2}$ ft. per doz. 2s.		1478 " folia variegata, media picta, white and green foliage, 1s. to	2 0
1453 " alba, white, $\frac{1}{2}$ ft. " 2s.		†GALAXIA, very pretty dwarf plants, with large and beautiful flowers, which expand in succession for several weeks.	
§CONVALLARIA. The species we offer here is the well-known Solomon's Seal; forced during the Spring months, this plant is exceedingly valuable for conservatory and table decoration, its long graceful arched stems and profusion of whitish-green flowers rendering it an object of no ordinary attraction.		1479 graminea, bright yellow flowers and grassy foliage, $\frac{1}{2}$ ft.	0 9
1454 multiflora, 3 ft., per dozen, 7s. 6d. ...	0 9	1480 ovata, bright yellow, slightly fragrant, $\frac{1}{2}$ ft.	1 0
†COOPERIA (Evening Star), a very interesting pretty plant, slightly fragrant.		§GERANIUM. The species described is a profuse blooming, recumbent plant, suitable for rockwork and mixed borders.	
1455 pedunculata, white,	1 0	1481 tuberosum, purple blue, per doz., 3s. 6d.	0 4
*CROCOSMIA (Tritonia), remarkable alike for its grace and beauty, and equally valuable for in and out-door decoration.		†GESNERIA, a magnificent class of plants, of which it would be impossible to speak too highly of their beauty and value.	
1456 aurea, golden yellow, 2 ft., per dozen, 4s. 6d.	0 6	1482 12 in 12 varieties, 12s., 18s., 24s., and 30s.	
§CROCUS. The variety offered here is the autumn-flowering saffron Crocus.		1483 6 in 6 varieties, 5s., 7s. 6d., 9s., 12s., and 15s.	
1457 sativus, per 100, 3s. 6d.; per doz., 6d.		1484 varieties, with beautiful marked foliage, 1s., 1s. 6d., and 2	
†CUMMINGIA, an elegant plant, flower-stems much branched and with many flowers; a fine winter blooming in-door plant.		†GLOXINIA, these are unrivalled for their exquisite beauty.	
1458 trimaculata, bright blue with dark spots, $\frac{1}{2}$ ft.	2 6	1485 12 in 12 varieties, 12s., 15s., 18s., 24s., and 30s.	
†CYPELLA (Tigridia), an elegant free-flowering plant, resembling the well-known Tigridia, but not quite so large.		1486 6 in 6 varieties, 5s., 6d., 7s. 6d., 9s., 12s., and 15s.	
1459 Herbortii, orange, 1 ft.	0 3	§GUNNERA, a very imposing ornamental foliage plant, adapted to sub-tropical gardens, margins of lakes, ponds, &c.	
†DAHLIA, dry roots of these in November.		1487 scabra 1s. 6d. and 2 6	
1460 fine show varieties, 9s., 12s., and 18s. per doz.		†HABRANTHUS, a very beautiful plant, closely allied to Zephyranthes.	
1461 fine fancy, 9s., 12s., and 18s. per doz.		1488 Andersonii, gold and brown, 1 ft.	1 0
1462 fine dwarf, 9s., 12s., and 18s. per doz.		1489 pratensis, scarlet, 2 ft.	2 6
1463 fine pompon, 9s., 12s., and 18s. per doz.		†HEZEMANTHUS (Blood-flower), curious and highly ornamental bulbous plants.	
§DIELYTRA, one of the most graceful plants cultivated. If forced it can be had in bloom very early in spring, and nothing at the period can excel in beauty its long elegant sprays of lovely heart-shaped red flowers. It is also an excellent border plant in sheltered situations.		1490 albidiflorus, white, 1 ft.	2 6
1464 spectabilis, red, 2 ft. 9d. to 1 0		1491 puniceus, scarlet, 1 ft.	2 6
§DODECATHEON (The American Cowslip), a remarkable and pretty little border plant.			
1465 Meadia, purple, 1 ft. 0 6			
1466 " alba, white, 1 ft. 1 0			
1467 " elegans, rose and lilac, 1 ft. ... 0 9			
§DOG'S TOOTH VIOLETS (Erythronium), charming early-blooming little plants, with beautifully spotted leaves; should be used as a permanent edging to spring beds and flower borders. The roots should always be planted on a layer of sand.			
1468 purple or red, $\frac{1}{2}$ ft., per 100, 7s. 6d.; per doz., 1s.			
1469 white, $\frac{1}{2}$ ft., per 100, 18s.; per doz., 2s. 6d.			

	Each—s. d.		Each—s. d.
† HEDYCHIUM (Garland-flower), a large reed-looking plant, with splendid heads of bloom.		succed admirably. The single roots offered by the hundred are intended for forming permanent beds or masses in the flower borders.	
1492 <i>Gardnerianum</i> , yellow, fragrant, 5 ft.	2 6	1515 fine clumps	1 6
§ HELLEBORUS (Christmas-rose), a valuable winter blooming plant.		1516 extra strong ditto	2 6
1493 <i>uiger</i> , white, 1 ft., per dozen 10s. 6d. and 15s.	1 6	1517 single roots, per 100, 7s. 6d., per dozen, 1s.	
§ HEMEROCALLIS (Day-lily), a handsome plant, succeeding best in moist and shady situations.		1518 rosen, single roots, per dozen, 3s.	
1494 flava, bright yellow, 2 ft.	0 6	1519 flore pleno, single roots, per dozen, 4s. 6d.	
1495 fulva, orange red, 2 ft.	0 6	1520 fol. variegata, single roots, per dozen, 5s. 6d.	
1496 " fol. variegata, yellow, foliage variegated, 2 ft.	1 0	† LYCORIS (The Golden Lily), an exceedingly beautiful plant of the amaryllis family.	
1497 kwanso fol. variegata, fl. pl. yellow, foliage most beautifully variegated, new and rare, 2 ft.	3 6	1521 aurea, golden yellow, 1 ft.	3 6
1498 Thunbergii, new.	1 0	MEDEOLA , a beautiful winter-flowering climbing plant, with orange scented blossoms; also valuable for hanging baskets, &c.	
§ HEPATICA , charming spring-flowering plant. The most desirable way of purchasing this is in clumps.		1522 asparagoides, white	0 9
1499 blue, single plants per doz., 6s.		† MELANTHIUM , a beautiful little plant, having much the appearance of a small <i>Ixia</i> .	
1500 " clumps 1s. 6d., 2s. 6d., and	3 6	1523 junceum, pink, stained with dark crimson spots, ½ ft.	1 6
1501 red, single plants per doz., 6s.		1524 purpureum, purple, ½ ft.	1 6
1502 " clumps 1s. 6d., 2s. 6d., and	3 6	† METHONICA (Gloriosa), an exceedingly handsome plant, with brilliant coloured flowers.	
* HESPEROSCORDUM (Missouri Hyacinth), very elegant, with a slender cylindrical stem, supporting an umbel of many star-like flowers.		1525 Plantii, rosy orange, 3 ft.	2 6
1503 lacteum, milk white, 1 ft.	1 0	† MORÆA , a bulbous rooted plant, with very handsome flowers, nearly allied to <i>Ixia</i> .	
† IMATOPHYLLUM . The species offered is a magnificent plant, throwing up its large bunches of scarlet blossom the year round.		1526 collina, purple, 2 ft.	1 0
1504 minutum, orange scarlet, 2 ft., 7s. 6d., 10s. 6d., 15s., and 21s.		1527 edulis, pink lilac, delightfully fragrant, 2 ft.	0 6
† ISMENE , a flower of great beauty, and of comparatively easy culture. It may be grown in pots for in-door decoration; or, if for out-doors, plant in April, taking care that the bulb is planted in pure sand, or sand and peat, and taken up in winter.		1528 juncea, scarlet.	0 9
1505 calatbina, large, pure white, delightfully fragrant flowers, 2 ft.	1 0	1529 viscosa, purple	0 9
1506 undulata, white, 1 ft.	0 6	† NERINE , showy and extremely beautiful flowers. The type of this plant is the well-known beautiful Guernsey Lily, so much sought after.	
LACHENALIA , curious and beautiful are the flowers of this genus, and of the easiest possible culture. Several should be grown together in a pot.		1530 corusca, bright glittering scarlet, superb, 1 ft.	1 6
1507 pendula, red, tipped green and purple, ¾ ft. per doz., 5s. 6d.	0 6	1531 flexuosa, pink, very distinct, 1 ft. ...	1 6
1508 quadricolor, scarlet and yellow, 1 ft. ...	1 0	1532 Fothergilli, deep vermilion scarlet, larger than the Guernsey Lily, 1 ft.	2 6
1509 tricolor, red and yellow, 1 ft.	0 6	1533 pumila, rose.	2 6
§ LEUCOJUM (Snow-flake), very beautiful, and as hardy as the snowdrop, which it very greatly resembles.		1534 undulata, dark rose, curiously crisped, ¾ ft.	2 6
1510 æstivum, white, 1½ ft., per dozen, 2s.	0 3	† PHIOPOGON (Snake's-beard), a curious and interesting plant.	
1511 vernum, white, ¾ ft., per doz., 5s. 6d.	0 6	1535 jaburan, white, 1 ft.	1 0
1512 pulchellum, white, 1½ ft.	0 6	1536 japonicus, light yellow, 1½ ft.	1 0
§ LIATRIS , charming herbaceous plants.		1537 spicatus, violet, 1 ft.	1 0
1513 spicata, purple, 2 ft.	1 6	§ SORNITHOGALUM (Star of Bethlehem), a showy bulbous plant; the hardy varieties are very effective in groups in the borders. Aureum is a very handsome pot plant.	
1514 squarrosa, purple, 3 ft.	1 6	1538 arabicum, white, black centre, handsome, 1½ ft.; per doz., 3s. 6d.	0 4
§ LILY OF THE VALLEY (<i>Convallaria Majalis</i>). For winter and early spring blooming, the clumps we offer of this fragrant and favourite plant cannot be too strongly recommended. They have been specially prepared for blooming in-doors. A few clumps planted in a box and placed in gentle heat will furnish a large quantity of bloom, and by successional plantings a supply may be maintained throughout the winter and spring months. They are also admirably adapted for flowering in the sitting-room, in pots, and for filling window flower boxes, &c. In London they		†1539 aureum, golden yellow, beautiful, ¾ ft.	2 0
		1540 pyramidale, white, showy, 2 ft.	0 6
		1541 umbellatum, white, showy, 1 ft.; per doz., 1s.	0 2
		OVIEDIA (Lapeyrousia), a very beautiful plant with abundance of flowers.	
		1542 corymbosa, dark purple blue, white centre, ¾ ft.	1 6
		† OXALIS . The flowers of this plant are very freely produced, and as they are all remarkable for their rich colours, they form a fine contrast with their deep green foliage. They are exceedingly effective in pots or in beds. A year or two ago there was a fine bed of Boweii at Battersen Park.	

Each—s. d.		Each—s. d.	
1543	Bowiei, <i>bright crimson</i> , large and fine, $\frac{1}{2}$ ft., per doz., 2s.	0	3
1544	Deppeii, <i>red</i> , very profuse bloomer, $\frac{1}{2}$ ft., per doz., 2s.	0	3
1545	floribunda, <i>rose colour</i> , $\frac{1}{2}$ ft., per doz., 2s.	0	3
1546	lutea, <i>yellow</i> , $\frac{1}{2}$ ft., per doz., 2s. 6d.	0	3
1547	rubella, <i>crimson</i> , branching, $\frac{1}{2}$ ft., per doz., 2s.	0	3
1548	speciosa, <i>purplish red</i> , continuous bloomer, $\frac{1}{2}$ ft., per doz., 2s.	0	3
1549	fine mixed, per 100, 10s. 6d.; per doz., 1s. 6d.	0	3
§ PÆONIA . This is one of our showiest and most attractive border plants, and quite indispensable for shrubbery borders. 0 3			
1550	herbaceous varieties 1s. 6d. to	2	6
1551	Moutan varieties (Chinese tree peony) 3s. 6d. to	7	6
† PANCRATIUM , a very handsome and exceedingly fragrant flower. 0 3			
1552	Illyricum, <i>white</i> , $\frac{1}{2}$ ft.	2	6
1553	maritimum, <i>white</i> , $\frac{1}{2}$ ft.	1	6
1554	parviflorum, <i>white</i> 1	6	
* PARDANTHUS (Leopard-flower), a very handsome plant, succeeding in any light rich soil. 0 3			
1555	chinensis, <i>orange</i> , beautiful. 2 ft. ...	1	6
† PENTLANDIA , an exceedingly beautiful plant. 1 6			
1556	miniata, <i>fine deep crimson</i> , beautiful	1	6
† RIGIDELLA , a very beautiful plant, requiring the same treatment as tigridia. 2 6			
1557	flammula, <i>intense scarlet</i> , 3 ft.	1	6
1558	immaculata, <i>deep crimson</i> , charming	1	6
§ SANGUINARIA , a pretty little plant, with ranunculus-shaped flowers. 0 9			
1559	canadensis, <i>white</i> , $\frac{1}{2}$ ft.	0	9
§ SAXIFRAGA , a very beautiful hardy border plant. 0 3			
1560	granulata flore pleno, <i>double white</i> , 1 ft., per doz., 2s. 6d.	0	3
§ SCHISOSTYLUS . This is a superb pot plant, with flowers resembling a dwarf gladiolus, which in winter under glass are produced in great abundance. 0 6			
1561	coccinea, <i>beautiful scarlet</i> , 1 ft., per doz., 5s. 6d.	0	6
1562	In pots, 9d., 1s. 6d., and 2s. 6d. each, according to the number of roots.	2	6
§ SPIRÆA (Hoteiæ). The species we offer here is remarkable for its beautiful leaves and great profusion of pure white fragrant flowers, which are produced in large branched heads. This is one of the most lasting, useful, and charming plants for the decoration of the conservatory and sitting-room, during the spring months. It is also an exceedingly useful border plant. 1 6			
1563	japonica, strong clumps, prepared for forcing.	2	6
1564	japonica, smaller, ditto.	1	6
† STRUMARIA , an exceedingly pretty and curious little plant. 0 9			
1565	crispa, <i>beautiful crimp pink flowers</i> , $\frac{1}{2}$ ft.	0	9
1566	filifolia, <i>white flowers, streaked pink outside</i> , $\frac{1}{2}$ ft.	1	6
§ THLADIANTHA , a fine climbing plant, with large shaded foliage and abundance of bloom, suitable for in or out-door decoration. 0 9			
1567	dubia, <i>golden yellow</i> 0	9	
† TIGRIDIA (Tiger-flower). It would be impossible to say too much in praise of this magnificent flower; it is extremely cheap, and may be cultivated success-			
fully in light rich soil, in beds or masses; it is a charming pot plant, three and four roots in a pot.			
1568	canariensis, <i>beautiful yellow</i> , 1 ft., per doz., 5s. 6d.	0	6
1569	conchiflora, <i>yellow spotted scarlet</i> , 1 ft., per doz., 2s. 6d.	0	3
1570	caelestis, <i>blue</i> , 1 ft.	0	9
1571	pavonia, <i>scarlet and orange</i> , 1 ft., per 100, 10s. 6d.; per doz., 2s.	0	4
1572	speciosa, <i>dark scarlet and orange</i> , 1 ft., per doz., 3s. 6d.	0	4
† TRICHONEMA , a truly charming slender little plant. 0 9			
1573	bulbocodium, <i>purple lilac</i> , most effective in groups of several bulbs, $\frac{1}{2}$ ft.	0	9
1574	celsi, $\frac{1}{2}$ ft.	0	6
1575	Columneæ, <i>blue</i> , very pretty, $\frac{1}{2}$ ft. ...	0	6
1576	ramiflorum, <i>purple</i> , very handsome, $\frac{1}{2}$ ft.	0	9
1577	speciosum, <i>carmine</i> , very fine, $\frac{1}{2}$ ft. ...	0	6
§ TRITELEIA , a charming dwarf plant, with delicately beautiful flowers, exceedingly effective when planted as an edging, in beds, or in groups in the borders, or several bulbs in a pot in the greenhouse or sitting-room window. 0 4			
1578	uniflora, <i>white streaked porcelain</i> , $\frac{1}{2}$ ft., per 100, 15s., per doz., 3s. 6d. ...	0	4
* TRITOMA , a truly noble, autumn-blooming plant, throwing up majestic flower stems, three to seven feet in height, crowned with densely flowered spikes of bloom, 18 to 27 inches long. Grown in groups amongst shrubs, or planted in lines in front of shrubs, nothing can surpass the effect they produce. So intensely bright are the flowers that they have been named "The Red-hot Poker Flower." They like a rich soil, and during dry weather should have abundance of liquid manure. 1 6			
1579	grandiflora (glaucescens), <i>scarlet</i> , flowering during Sept. and Oct. per doz., 10s. 6d. and 15s. ...	1	6
1580	grandis, <i>bright scarlet</i> , a noble species, blooming later than the preceding, and continuing, if the weather permit, to Christmas. 1s. 6d. and	2	6
TROPÆOLUM , a slender, rapid-growing, graceful, exquisitely beautiful plant; tricolorum, Jarattii, azureum, and brachyceras are unsurpassed for wire globes and trellis-work in the greenhouse; pentaphyllum, polyphyllum, speciosum, and tuberosum are bardy, requiring to be planted in a warm rich soil, and protected during winter. 5 0			
1581	azureum, <i>blue</i> 2	6	
1582	brachyceras, <i>yellow</i> 3	6	
1583	Jarattii (grandiflora), <i>scarlet, yellow, and black</i> 2s. 6d. to	3	6
*1584	pentaphyllum, <i>scarlet and green</i> 1	6	
*1585	polyphyllum, <i>golden yellow</i> 3	6	
*1586	speciosum, <i>scarlet</i> 1s. 6d. to	2	6
1587	tricolorum, <i>scarlet, yellow, and black</i> 1s. 6d. to	2	6
*1588	tuberosum, <i>yellow and red</i> 1	6	
TUBEROSES ; the flowers resemble those of the much-prized Stephanotus, but they are sweeter. The cultivation of the plant is simple, requiring merely to be started in bottom heat, and this may be done in succession, from January to May, so that the plant may be had in bloom from August to December. Three or more roots are grown in a pot. <i>Roots not ready to send out till middle of December.</i>			
1589	double Italian, per doz., 3s. 6d. See 1590.		

	Each—s. d.		Each—s. d.
1590 double Italian Tuberoses, extra strong roots, per doz., 5s. 6d.		†WACHENDORFIA, very profuse flowering, showy, and interesting.	
§TULIPA. Under this heading we include a number of species which are both interesting and beautiful; they cannot, however, be used with the same advantage for decorative purposes as those enumerated in the fore-part of the catalogue, but may be grown in pots or in the open border as interesting objects.		1602 brevifolia, curious grey colour, with yellow eye, 1 ft.	0 9
1591 cornuta (horned), yellow and red, curious, per doz., 1s. 6d.	0 2	1603 thysiflora, purple, 1 ft.	0 9
1592 clusiana, white, black centre, pretty...	0 6	†WATSONIA, a truly beautiful bulbous plant, deserving far more attention than it has hitherto received. Some of the varietics are remarkably striking. A few groups, well bloomed, in some of our great gardens, such as we are wont to see them in the Island of Guernsey, would form a theme worthy of the pen of our most celebrated writers on gardening topics.	
1593 elegans, rich carmine, beautiful.....	0 4	1604 angustifolia, lively pink, per doz., 2s. 6d.	0 3

1597 sylvestris (Florentine), yellow, fragrant, per doz., 1s. 6d.	0 2	1608 marginata, delicate rose, exquisite ...	0 6
1598 viridiflora, green, curious, per doz., 2s. 6d.	0 3	1609 marianara, purple crimson	0 6
1599 " præcox, green, very curious and interesting.....	0 6	1610 speciosa, fine	0 6
VALOTTA, a splendid plant, of the easiest possible culture.		1611 mixed varietics, 15s. per 100, 2s. 6d. per dozen.	
1600 purpurea (Searboro' Lily), bright scarlet, per dozen, 18s.	2 0	†ZEPHYRANTHES (Flower of the West Wind), a very elegant and beautiful plant, of easy cultivation.	
*VIEUSSEUXIA, a lovely little plant, the beauty of which cannot be over-estimated.		1612 atomasco, white, beautiful, per doz., 3s. 6d.	0 4
1601 pavonia (Iris pavonia), white, each petal blotched bright blue, per doz., 2s. 6d.	0 3	1613 candida, silvery white, resembling a large beautiful white crocus, per doz., 3s. 6d.	0 4
		1614 rosen, beautiful rose	0 9
		1615 sulphurea, pale yellow	1 0

LIST OF PLANTS USED BY MR. FLEMING AT CLIVEDEN.

THESE ARE READY TO SEND OUT ANY TIME AFTER THE 1ST OCTOBER.

In former editions of our Catalogue we have so fully dilated upon and explained the *modus operandi* of Spring gardening that we feel it superfluous to say more here. If there be any of our customers, however, who are still sceptical as to the capabilities of their gardens for producing flowers early in Spring, we would invite such of them as live in the home counties to pay a visit to Cliveden, the seat of Her Grace the Duchess of Sutherland. There, under the able management of Mr. Fleming, they will find dress gardening out of doors all the year round. Those who reside in the midland or northern counties we would recommend to visit the Lower Ground, Aston Park, where, to the credit of Mr. Quilter, the proprietor, Spring gardening is made a prominent feature, successfully demonstrating that locality has less to do with achieving this great desideratum than forethought and skill.

Fifty will be charged at the rate per 100, and a less quantity at the rate per dozen; and any quantity under half-a-dozen will be charged a little higher than by the dozen.

	Per 100.	Per doz.
	s. d.	s. d.
1616 Adonis vernalis, bright yellow, large anemone-like flowers	—	6 0
1617 Ajuga orientalis, fine mulberry-foliaged plant during winter, effective for edgings	30 0	4 6
1618 " reptans, also dark-foliaged plant, resembling the above	21 0	3 0

1667	" Cliveden single yellow; for ribbons, back row of borders, and beds	25 0	...	4 0

CLIVEDEN COLLECTION OF SPRING FLOWERING PLANTS.

1668 50 Perpetual Yellow Pansies, 50 do. Beautiful Blue Pansies, 50 do. Rich Purple Pansies, 50 Mixed Polyanthus, 100 White Daisies, 100 Pink Daisies, 100 Rich Blue Forget-me-not, and 100 Pink Silene, £5. 10s. Half the above quantity, 57s. 6d.; Quarter the above quantity, 30s; One-eighth the above quantity, 15s. 6d.

The above hardy plants cannot be other than a boon to those whose accommodation for wintering plants is limited. Most of them are spring-blooming, and must be removed to make way for the summer plants; amongst them, however, are several the beauty and effectiveness of which in the summer flower-garden cannot be over-estimated; indeed, in some gardens, they are considered indispensable adjuncts in beds, ribbons, and edgings. Amongst the foliage plants suitable we may name *Arabis mollis variegata*, *Cerastium tomentosum*, *Stachys lanata*, *Vinca elegantissima*, *Tussilago variegata*, and *Euonymus radicans variegata*; and amongst the flowering plants, the different coloured Pansies, the *Viola cornuta* and *Viola calcarata*. Success with some of these, however, is a question of management. In temperate seasons, the autumn plantings of *Arabis*, *Cerastium*, Pansies, and *Viola* answer very fairly during summer; but in a season such as we have just passed through, it has been found that greater success has been attained by replanting the *Arabis* and *Cerastium* at the time of bedding out the summer plants; and that spring-struck Pansies and *Violas* of the sorts above-named have continued blooming without intermission during the hot weather.

We are continually having consignments of these from the Continent. Prices range from 10s. 6d. to 42s., according to size and variety. These, with a great variety of other Foliage Plants, we have always at our Warehouse.

HARDY ORNAMENTAL FLOWERING SHRUBS.

1702 Assorted per dozen, 18s., 24s., 30s., and 42 0

HARDY ORNAMENTAL EVERGREEN SHRUBS.

1703 Assorted per dozen, 18s., 24s., 30s., and 42 0

HARDY ORNAMENTAL CLIMBERS.

1704 Assorted per dozen, 18s., 24s., and 30 0

ROSES.

1705 Dwarf varieties per dozen, 12s., 15s., and 18 0

1706 Standard „ per dozen, 21s. and 30 0

1707 Climbing „ per dozen, 12s., 15s., and 18 0

GREENHOUSE PLANTS.

1708 Assorted per dozen, 18s., 24s., 30s., and 42 0

THE FEW SPECIALITIES IN HARDY PLANTS.

1709 *Acer negundo variegatum* (The white variegated Maple), the most strikingly effective variegated tree we possess. Dwarfs, each, 2s. 6d. to 3s. 6d.; standards, each, 3s. 6d. to 5s. 6d.

1710 *Aucuba japonica masouia femina*, the new male Japanese Aucuba, each, 3s. 6d., 5s. 6d., 7s. 6d., and 10s. 6d., according to the variety; larger plants higher in price.

1711 Ives, English, Irish, Algerian, and variegated, all sizes, each, 1s. 6d., 2s. 6d., and 3s. 6d. A few very large Irish Ives; price on application.

1712 *Thalictrum minus*, a beautiful border plant, resembling the Maiden Hair Fern, each, 1s.

VIOLETS, SWEET SCENTED.

These are universal favourites, and cannot be dispensed with in any garden, however small; their delicious and gratefully fragrant flowers are produced with so much profusion, that they may be gathered almost daily throughout the winter and spring months. *Devoniensis*, King of Violets, Neapolitan, and Scotch, are in bloom throughout the whole year. The Czar cannot be too highly recommended.

Arborea (Tree Violet), blue, each 1s.

white, each 1s. 6d.

Brandyana, dark purple striped white and pink, each 1s. 6d.

Devoniensis, dark purple, large flowers, each 9d.

King of Violets, dark indigo blue, very large double flowers, each 1s.

Neapolitan, lavender blue, large double flowers, each 9d.

Queen of Violets, white shaded blush, very large and double, each 9d.

Rubra plena, pale red, double, each 9d.

Rubra simplex, red, single, each 9d.

Russian, double blue, each 9d.

„ single blue, each 9d.

„ giant blue, each 9d.

Sanvis, pale lavender, large flowers, each 9d.

Scotch, dark purple, large double flowers, each 9d.

Striata obliqua, purple and white, each 9d.

The Czar, dark purple, very large flowers, each 9d.

White, double, each 9d.

„ „ compacta, each 9d.

„ „ single, each 9d.

STRAWBERRIES.

Less quantities than 50 of a sort will be charged a little higher.

A few of the prices are somewhat higher this season, owing to the extra labour which has been necessary in producing plants.

FRUIT TREES.

Apples, Apricots, Cherries, Currants, Cobnuts, Filberts, Figs, Gooseberries, Medlars, Mulberries, Nectarines, Pears, Plums, Peaches, Quinces, Raspberries, and Walnuts.

VINES IN POTS.—Healthy first-class Varieties.

Medium, Strong, and Extra Strong Canes, 7s. 6d., 10s. 6d., 12s. 6d., to 15s. each. The new varieties of Vines, viz.:—Royal Ascot or Perpetual, Golden Champion, and Maddersfield Court Black Muscat—all first-class Vines—42s. and 63s. each.

Orders for Vines should be sent in early, as the demand is always greater than the supply.

We do not supply a printed list of plants, but if any of our customers will send us a list of the plants they are in want of, stating size, &c., we shall be happy to attach prices to it.

LIST OF HORTICULTURAL REQUISITES AND ELEGANCIES.

BARR & SUGDEN'S CONCENTRATED MANURES, FOR ROSES AND FRUIT TREES, UNDER GLASS AND OUT OF DOORS; FOR VINES IN POTS AND FOR VINE BORDERS; FOR MELONS AND CUCUMBERS; FOR CAMELLIAS, AZALEAS, AND OTHER HARD-WOODED STOVE AND GREENHOUSE PLANTS; FOR IMPROVING LAWNS WHICH ARE OUT OF CONDITION; AND FOR KITCHEN GARDEN CROPS.

For small suburban gardens manures of this sort cannot be over-estimated; while in large gardens the saving of labour in applying these is very considerable, and being free from disagreeable smells they may be used freely in houses frequented by ladies; and, what is of still more importance, they will produce speedier and more permanently beneficial results upon plants in pots than manure water usually drawn from the farm-yard. The best evidence of this that can be given is the extensive use made by nurserymen of these manures.

STANDEN'S GARDENERS' AND AMATEURS' FRIEND MANURE.—The finest fertiliser which has yet been produced for all kinds of plants in pots and in the open ground, for improving grass lawns, and for producing superior kitchen garden crops. The gardening community have had the opportunity of testing this manure for the last twelve years, and it is specially worthy of remark that those who have used it longest speak most highly of the extraordinary results produced by it. We may just remark that Mr. Barnes, Nurseryman, Camberwell, one of the most successful and intelligent horticulturists of the day, uses this exclusively for his pot Vines, Azaleas, Camellias, and all such plants as are benefited by manure. Messrs. James Veitch and Sons, Chelsea, Mr. Charles Turner, Slough, Messrs. J. and C. Lee, Hammersmith, Messrs. E. G. Henderson and Son, St. John's Wood, and Messrs. Hugh Lowe and Co., Clapton, regularly use this manure; and Mr. John Standish, the well-known nurseryman at Ascot, uses it very largely, and calls it "the wonderful manure." We could quote a host of private gardeners and nurserymen around London, and all over the country, who use this extensively. In several instances extraordinary Strawberries (produced under glass) which had been fed with this manure, were exhibited last spring, before the Fruit Committee of the Royal Horticultural Society. Sample Canisters, 1s. and 2s. 6d. each; Larger Canisters, 5s. 6d., 10s. 6d., and 21s. each. It is sold in two qualities: No. 1 for hard-wooded plants, such as Azaleas, Camellias, Roses, Fruit Trees, &c., and for the open ground; and No. 2 for soft-wooded plants, such as Geraniums, Bulbs, &c.

MCDUGALL BROTHERS' PHOSPHATIC MANURE.—Prepared by these eminent chemists with the greatest care, for Flowering Plants, in pots or in the open ground, causing them to produce larger, more perfectly formed, and richer coloured flowers, than could be obtained by using either liquid manure or guano. For vine and peach borders, vines in pots, and orchard house plants, it is very superior to farm-yard manure, and for kitchen garden crops the advantage of the Phosphatic Manure is obvious, when we state that it possesses the stimulating properties of the purest Peruvian Guano, and, in addition, contains a large percentage of soluble phosphates, which furnish a supply of food till the crops are matured; it also prevents the soil becoming impoverished, as is the case when stimulating compounds only are used. Crops to which it is applied arrive at maturity earlier, and are more delicate in flavour, than those which have been manured in the ordinary way or with guano. Sample canisters, 1s. and 2s. 6d.; 14 lb. bag, 5s. 6d.; $\frac{1}{4}$ cwt. do., 10s.; $\frac{1}{2}$ cwt. do., 18s.; 1 cwt. do., 35s. We also supply an excellent Phosphatic Manure, by the same eminent chemists, for agricultural purposes, and which can be applied to all kinds of green crops, wheat, grass, &c., per $\frac{1}{4}$ cwt. bag, 25s., or 18s. per cwt. Terms for this latter, per ton, on application.

The following valuable Garden Manures we also keep in stock, and can recommend them. They are pure, and warranted of the best quality in the market. The Peruvian Guano and Cubic Petre we have out of bond:—

PERUVIAN GUANO, Pure.—The most stimulating, and, at the same time, the most rapidly available food for Plants generally, and being perfectly soluble, it is the most easily converted into Liquid Manure; 5d. per lb.; or in canisters, with printed directions for use, 1s. and 2s. 6d.

CUBIC PETRE, Pure.—This is used largely as a dressing for Grass and Green Crops, and the effect on these is quickly perceptible. In a liquid state applied to Fuchsias, Carnations, Chrysanthemums, Celery, &c., the results are most satisfactory; 5d. per lb.; or in canisters, with printed directions, 1s. and 2s. 6d.

SULPHATE OF AMMONIA, Pure.—An exceedingly useful stimulant, which may advantageously be applied to Grass, Potatoes, &c., and, in a liquid state, to Flowers in beds and borders, and to Chrysanthemums in or out of pots; 5d. per lb.; or in canisters, with printed directions, 1s. and 2s. 6d.

CRUSHED BONES.—This we recommend for Vine Borders, mixing with the soil in planting Fruit Trees, and also mixing with potting soils for such plants as Pelargoniums, &c.; 4d. per lb.; or in canisters, with printed directions, 1s. and 2s. 6d.

DISSOLVED BONES.—This is a very superior superphosphate of lime; it is chiefly used for Grass, but if sprinkled on the surface of the soil of Flower Beds and Borders, its action on the Plants is most beneficial, and it also is an effectual preventive against the depredations of snails and slugs; 4d. per lb.; or in canisters, with printed directions, 1s. and 2s. 6d.

INSECTICIDES.

LONDON AGENTS, WHOLESALE AND RETAIL, FOR—

Fowler's Gardeners' Insecticide.—This is the best and safest preparation which has yet been introduced for easily and effectually preventing and destroying plant insects, &c., such as RED SPIDER, GREEN AND BLACK FLY, ANT, MEALY BUG, SCALE, THIRID, AMERICAN BLIGHT, MILDEW, CANKER, &c., and without the slightest injury to the plant or tree. It is now used by the leading gardeners and nurserymen, and from the unqualified terms in which it has been spoken of by them, we confidently recommend it to our customers. Sold in jars at 1s. 6d., 3s., 5s. 6d., and 10s. each.

The Aphis Wash.—A very excellent article, which has been much recommended by Mr. Shirley Hibberd; it destroys aphis, red spider, blight, &c. Sold in jars, 1s. each.

The Gishurst Compound.—The value of this insecticide is known to almost every gardener. Sold in boxes, 1s., 3s., and 10s. 6d. each.

Pooley's Tobacco Powder.—This insecticide is dusted over the plants when the leaves are moist, and is considered an excellent remedy for the destruction of blight, mildew, and insects. To amateurs who attend to their own plants, and to whom it would be inconvenient to use any of the above remedies, Pooley's Tobacco Powder will be a boon. It simply requires to be placed in a distributor, and puffed over the plants. To cultivators of roses, ferns, &c., it will be found valuable. Sold in canisters, 1s., 2s. 6d., and 5s. each; Tobacco Powder Distributors, 2s. 6d., 3s. 6d., and 5s. each.

Scott's Wasp-Destroying Mixture.—This preparation has been highly spoken of, and strongly recommended for getting rid of wasps in vinerias, peach-houses, &c., and as every one knows the destructiveness of these pests, they will readily welcome anything that will assist in their destruction. Sold in bottles, 1s. 6d. and 2s. 6d. each.

Tobacco Paper, superior quality, 1s. 6d. per lb.

Tobacco Rag, recommended as being very powerful, 1s. 9d. per lb.

Tobacco Tissue, recommended as being simple in application and powerful in effect. 3s. 6d. per lb.; perfumed, for fumigating conservatories, 4s. per lb.

Aphis Brush.—The amateur will find this brush invaluable for removing the green fly, &c., from roses, geraniums, fuchsias, and other plants, in or out of doors. The hairs are soft and flexible, so that when the tender shoot is passed between the brushes it is freed from the insects, and is uninjured by the process. 2s. 6d. each; handles covered with velvet, 3s. 6d.

The Improved Paxton Fumigator.—Those who dislike the disagreeable process of fumigating houses in the ordinary way will find the Paxton Fumigator to be all they could desire. It is simple and efficacious. The nozzle, cylinder, and inner gratings are cast in brass, and will stand any reasonable amount of heat; the bellows are strong and well made. The operator has simply to insert the nozzle through a small opening, and gently work the bellows till he has filled the house with smoke. When fumigating a single plant, screw on the brass tube to the nozzle, and by that means scorching the foliage will be avoided. 12s. 6d. each; superior finish, 15s.; electro plated, 21s.

THOMPSON'S STYPTIC.

LONDON AGENTS, WHOLESALE AND RETAIL.

Every cultivator of Vines should have a bottle of this Styptic ready at hand when pruning, as it is the best remedy against their bleeding. It is also valuable in grafting and budding, and has been used successfully in preventing Geranium and other cuttings from damping off, by simply smearing the end of the cutting with the preparation. Sold in bottles, 3s. each.

BARR & SUGDEN'S PREPARATION OF COCOA FIBRE & CHARCOAL,

FOR THE SUCCESSFUL CULTIVATION OF HYACINTHS AND OTHER DUTCH BULBS IN THE DRAWING-ROOM OR SITTING-ROOM, IN GLASSES, JARDINETTS, AND OTHER ELEGANT CONTRIVANCES WHICH ARE WITHOUT MEANS OF DRAINAGE.

No. 1 quality, for Hyacinth Glasses, China Bowls, small Jardinets, &c. 2s. per peck, 6s. per bushel.

No. 2 quality is used for large Jardinets, Vases, &c. 1s. 6d. per peck, 4s. 6d. per bushel.

Suitable Charcoal for placing at the bottom of Jardinets, Vases, &c., 1s. 6d. per peck, 4s. 6d. per bush.

(The above preparations we use when planting our Fern Cases.)

Sifted Cocoa Fibre, 3s. 6d. per bushel. Common Cocoa Fibre, 2s. 6d. per bushel. *Special prices for large quantities.*

Fresh Green Carpet Moss, for covering tops of Jardinets after being planted, in lots, 1s., 1s. 6d., 2s. 6d., 3s. 6d., and 5s. 6d.

Peat, Leaf Mould, Silver Sand, and Virgin Loam, separate or mixed, 3s. 6d. per bushel. *Special prices for large quantities.*

A FEW EXAMPLES OF RUSTIC TERRA COTTA, &c.

For additional Illustrations see "Illustrated Sheet."

The following Jardinets, when filled with bulbs, can be sent by rail in the ordinary way, before they have made much growth; but when the bulbs are advanced towards flowering, they must travel in the care of some one.

THE NE PLUS ULTRA DRAWING-ROOM JARDINET.
In sizes, 3s. 6d., 4s. 6d., 5s. 6d., 8s. 6d. and 12s. 6d.
Do., filled with Hyacinths or assorted bulbs,
7s. 6d., 10s. 6d., 12s. 6d., 21s., and 30s.

PRINCE OF WALES Circular Terraced JARDINET,
15s. 6d.; filled with assorted bulbs, 35s. to 42s.
This Jardinets is also an elegant receptacle for cul-
tivating Ferns in the sitting-room.

RUSTIC TERRA COTTA FLOWER POTS, VASES, PLANT CASES, &c.

Illustrations of most of these will be found in our "Illustrated Sheet."

ALEXANDRA TERRACED DRAWING-ROOM JARDINET, 10s. 6d.; filled with assorted bulbs, 15s. 6d. and 21s.

RUSTIC ROBIN DRAWING-ROOM JARDINET, 5s. 6d.; filled with assorted bulbs, 10s. 6d. and 12s. 6d.

HEDGEHOG ON STUMP RUSTIC STAND, 5s. 6d.; filled with Crocus and Hyacinths, 10s. 6d. and 12s. 6d.

BEEHIVE ON RUSTIC STAND, 4s. 6d. and 5s. 6d.; filled with Crocus and Scillas, or Miniature Hyacinths, 6s. 6d. and 8s. 6d.

RUSTIC BARK VASE POTS, 5½ in., 2s.; 6½ in., 3s.; 7½ in., 4s. 6d.; 8½ in., 5s. 6d.; 10 in., 8s. 6d.; 12 in., 12s. 6d.; ditto, filled with Hyacinths or assorted bulbs, 4s. 6d., 7s. 6d., 10s. 6d., 12s. 6d., 21s., and 30s.

RUSTIC PINE FLOWER POTS, 4 in., 1s. 6d.; 5 in., 2s. 6d.; 6 in., 3s. 6d.; 7 in., 5s.; 8 in., 7s.; 10 in., 9s.; 12 in., 12s. 6d.; ditto, filled with Hyacinths or assorted bulbs, 3s. 6d., 5s. 6d., 8s. 6d., 10s. 6d., 12s. 6d., 21s., and 30s.

RUSTIC STICK FLOWER POTS, 7 in., 3s.

RUSTIC WALL POTS, for fastening to the back of Conservatories, Fernery Walls, &c., 4s. 6d. each.

RUSTIC PINE FERN OR PLANT CASE (as illustrated page), 5 in. diameter, 2s.; 6 in. do., 2s. 6d.; 8 in. do., 3s. 6d.; 10 in. do., 5s. 6d.; 12 in. do., 6s. 6d.; 14 in. do., 12s. 6d.; 16 in. do., 15s. 6d. These, filled with assorted bulbs, are exceedingly effective in winter, and in summer they can be filled with Ferns, &c. When filled with assorted bulbs, the prices will be 4s. 6d. to 42s.

RUSTIC FERN OR PLANT CASE ON PEDESTAL (as illustrated page), 7 in. diameter, 5s. 6d.; 10 in. do., 7s. 6d.; 12 in. do., 10s. 6d. These are exceedingly effective in winter, filled with bulbs, and in summer with Ferns. When filled with assorted bulbs the prices will be 10s. 6d., 15s., and 21s.

RUSTIC VANDYKE PLANT CASE, 10 in., 7s. 6d., and 12 in. 10s. 6d. Filled with assorted bulbs, 15s. and 21s.
GLASS SHADES are supplied for the above plant cases at 2s. 6d. to 21s., according to size.

RUSTIC TERRA COTTA FERN AND FLORAL ARBORETES, modelled from Nature. (For further illustrations see *Illustrated Sheet*.) Of all the terra cotta rustic introductions which have yet come under our notice these are the most unique, natural, and beautiful. Some of them are in the form of seats, and all have been modelled from existing noted remains of ancient trees. With the exception of the smaller ones, we would recommend their being placed about the grounds and in conservatories where a little rusticity is desired. 7s. 6d., 10s. 6d., 15s. 6d., 21s., 25s., 30s., 35s., 42s., 63s., and 84s., according to size and design.

DRAWING ROOM OCTAGON JARDINET, manufactured in rustic wood, bronzed, and fitted with encaustic tiles. 16 in. diameter, 63s.; hexagon, 11 in. diameter, 50s.

A similar Jardinet, same diameter, and suitable for the table. Octagon, 55s.; hexagon, 45s. Drawing Room Brackets, in wood, bronzed, in the same style as above, 10s. 6d. and 21s.

CENTRES FOR THE DINNER TABLE of every description, 7s. 6d. to 63s.

FLOWER VASE, fence pattern, in White China or Brown Lava.—These are manufactured round, oval, and square. Round, 2s. 6d., 3s. 6d., 5s., 6s. 6d., 10s. 6d., and 12s. 6d. Oval, 5s. 6d., 7s. 6d., 10s. 6d., 12s. 6d., and 15s. Square, 3s. 6d., 5s. 6d., 7s. 6d., and 10s. 6d. If gilt, or in colours, a little higher, but the plain are the most chaste. These are fitted with tin pans, in which bulbs or ferns can be successfully grown.

RUSTIC TERRA COTTA BRACKETS, in various designs, the above being one of them. 2s. 6d., 4s. 6d., 7s. 6d., 10s. 6d., 12s. 6d., 15s. 6d., 17s. 6d., and 21s.

ROCK, CAVERN, AND STALACTITE ORNAMENTS, modelled by hand in red clay. These are intended to grow ferns in, or to place in fern cases and in miniature rockwork. 2s., 3s. 6d., 5s. 6d., 7s. 6d., 10s. 6d., 12s. 6d., and 15s. 6d.

RUINS OF CASTLES, &c., FOR FERN CASES, AND MINIATURE ROCKWORK, &c. 3s. 6d., 5s. 6d., 7s. 6d., and 10s. 6d.

The above is an illustration of an entirely new class of fancy **TUB FLOWER POTS**, bronzed, in brown, grey, copper, and green. They are very pretty. 5-in., 3s.; 6½-in., 4s. 6d.; 7½-in., 5s. 6d.

MAJOLICA TUB FLOWER POTS, 5½-in., 6s.; 6½-in., 8s.

MAJOLICA FLOWER POTS, imitation oak, for the dinner table. 5½-in., 5s.; 6½-in., 6s.; 7½-in., 8s.; 8½-in., 12s.

ETRUSCAN FLOWER POTS, 1s. 6d., 2s. 6d., 3s. 6d., and 4s. 6d.

FRENCH CREAM COLOURED TERRA COTTA, with beautiful moulded figures, 2s. 6d., 3s. 6d., 5s. 6d., and 7s. 6d.

CHINA AND GLASS FLOWER POTS, with figures and flowers, adapted for dinner tables, 7s. 6d., 10s. 6d., 15s., & 21s.

FLOWER POTS, WEDGEWOOD MANUFACTURE, blue with raised white figures, very beautiful, 6s. 6d. and 8s.

STAGS' HEAD TRIPOD, for cut flowers, or for growing bulbs or ferns. White, 7s. 6d.; coloured to nature, 12s. 6d.

ALEXANDRA EXPANDING FLOWER POT COVERS, 9d., 1s., 1s. 3d., 1s. 6d., 1s. 9d., 2s., and 2s. 6d. These are very effective if the flower pot is covered with coloured paper, or one of the ordinary paper flower pot covers placed inside.

PAPER FLOWER POT COVERS, figured or plain, 9s. to 12s. per dozen. These latter can be sent by post.

Square ENCAUSTIC TILE BOX, with strong zinc frame, 8-in. tiles, 21s., 25s., and 30s., according to the quality of the tile.

RUSTIC TERRA COTTA AND ETRUSCAN PLANT OR FERN CASES, WITH GLASS SHADES, are the subjects of the above illustration. We have these, however, in zinc and in basket-work, elegantly designed, and suitably ornamented for the drawing-room. See Illustrated Sheet. Prices range from 10s. 6d. to 42s.; furnished with Plants, 15s. to 63s.

The above represents a beautiful PALISSY VASE, which we sometimes use as a basin in ferneries, or as a fern stand, and as a centre for the dinner table. The vase is £4 4s. We have many other designs in Palissy-ware.

Round CUT FLOWER TRAYS, japanned in green, 3s. 6d. and 4s. 6d.; in white and gold, 4s. 6d. and 6s. 6d.; oval, 4s. and 5s. 6d., and 5s. 6d. and 6s. 6d.

ENCAUSTIC TILE WINDOW BOX, 20s. per box and upwards, according to size and quality of tile.

Ditto Mignonette Boxes, 15s. per box and upwards, according to size and quality of tile.

For small conservatories, staircases, landings, and staircase windows, the **RUSTIC FERNERIES** are a great acquisition and a source of continual enjoyment to the possessors. They are equally adapted for town and country residences. They can be constructed on the smallest and on the largest scale, and can be associated with water—indeed, the interest is doubled in the latter case. The Ferneries are constructed at from ten guineas upwards. The illustration represents a rustic fernery we lately fitted up in a small conservatory in London.

BARR'S IMPROVED ALBERT PLANT CASE AND STAND, WITH PATENT VENTILATORS.—The frame and fittings of this case are of wrought iron, and the pan of strong zinc. It is unquestionably the premier plant case in elegance of design, superiority of workmanship, and adaptation for the growth of plants. The Case, according to size, 60s., 84s., 105s., and 135s.; furnished with Plants, 95s., 120s., 168s., and 210s. The Stand, 35s. to 50s.; if mounted on castors, 10s. extra. A cheaper Case of the same design can be supplied, with zinc frame, but it is not recommended. Other designs of Plant Cases will be found in our Illustrated Sheet.

THE CLEVELAND WINDOW CONSERVATORY.—These are peculiarly adapted for London and other large towns. They can be planted with ferns and foliage plants, or they can be simply used for flowering plants. They are a great acquisition. Price, £7 10s. and upwards.

WINDOW WOODEN FLOWER BOX, plain, 10s. 6d. each, and upwards; and ornamented, 15s. and upwards, according to size and amount of external decoration.

GARDEN REQUISITES.

IMPLEMENTS OF EVERY DESCRIPTION SUPPLIED.

LADIES' WATERING CANS, with Brass Roses to screw on, 4s. 6d., 5s. 6d., and 6s. 6d. With additional finer rose, 1s. 6d. each extra.

SYRINGES.—These we have of all sizes, from the Ladies' size, 5s. 6d., 7s. 6d., and 10s. 6d., to the heavier sizes, 10s. 6d. to 21s.; and Reid's manufacture, 15s. 6d. to 35s. Warner's Garden Engines, Water Barrows, &c., supplied at advertised prices.

THE PATENT B. B. LAWN MOWER we recommend with confidence as the best, leaving the superintendent of the Alexandra Park to state its merits:—

"I have recommended your Lawn Mower to many of my friends, believing that the machine does its work better than any other, and combines strength superior to Shanks' machine, with the lightness of Green's. Having now four of your Lawn Mowing Machines in constant use on our grounds, and two of these having been in work over a year, I have never had cause to alter this opinion of your Machine, which I now have pleasure in giving to you.—Yours faithfully,
To Messrs. Brown & Co. "ALEX. MACKENZIE."

Price £4, £5, £5 10s., £6 10s., £7 10s., £8 and upwards.

HYDROPULTS AND SMALL GARDEN ENGINES OF VARIOUS KINDS.

NEGRETTI & ZAMBRA'S THERMOMETERS AND METEOROLOGICAL INSTRUMENTS.

SAYNOR'S PRUNING, GRAFTING, AND BUDDING KNIVES AND SCISSORS: the best quality, and warranted. Pruning Knives, with straight or curved blades, 3s., 3s. 6d., and 4s. Budding Knives, 3s. Vine Scissors, 3s. and 3s. 6d. Ladies' Flower Gathering Scissors, 3s. 6d. and 4s. Propagating Scissors, 3s.

STRONG GARDEN GLOVES, 1s. 6d., 2s., and 2s. 6d. per pair, according to quality.

LADIES' GAUNTLET GARDEN OR DRIVING GLOVES, 2s. 6d., 3s., and 3s. 6d. per pair.

METALLIC GARDEN WIRE, 1s., 1s. 2d., 1s. 4d., and 1s. 6d. per lb.

FINE HORTICULTURAL COPPER WIRE, much more durable and cheaper than Metallic Wire, 1s., 1s. 6d., 2s., and 2s. 6d. per bundle.

WOLFF'S SOLID INK GARDEN PENCILS, black, blue, or red, 6d.; extra large, 1s.

DUNN'S SOLID MARKING INK PENCILS, with additional point, 1s. each.

YEATS' STRONG METALLIC CONSERVATORY, FERNERY, WINE CELLAR, AND GARDEN LABELS, as figured in "Illustrated Sheet."—No. 1, for pots or borders, per 100, 4s.; Nos. 2 and 3, ditto, 3s. 6d.; No. 4, ditto, 3s.; No. 15, ditto, 2s.; No. 5, for suspending, per 100, 3s.; Nos. 6 and 13 ditto, 2s. 6d.; Nos. 7 and 14, ditto, 2s. For 1s. extra the above are supplied in boxes, with suitable quill pens, metallic ink, &c. We frequently make zinc labels of a larger size for specimen trees, on which we paint the name of the tree. In such cases we paint the label white and write with black, or *vice versa*. The other labels can be painted in the same manner. If necessary, we can also have the name or number stamped on the labels.

MAW'S PATENT IMPERISHABLE TERRA COTTA PLANT LABELS.—These are in various sizes and designs, and being far superior to any other terra cotta label, we recommend them with the greatest confidence. Those for pots in the open ground are made in the ordinary tally form; while those for suspending to roses, fruit trees, &c., are of various designs. With a hard pencil the name may be written on them without any preparation; but if a little white paint is used, as in the preparation of ordinary wooden labels, the pencilling will be indelible. Labels for pots or flower borders, 1s., 1s. 6d., 2s., 2s. 6d., 3s. 6d., and 4s. per 100, according to size. Labels for suspending to roses and fruit trees, 1s. 3d., 2s. 6d., and 4s. per 100. Illustrations of these are in preparation, and can be had with further particulars on application.

THE HORTICULTURAL GARDEN WOODEN LABELS OR TALLIES, painted. Sold in bundles of 100, including solid marking ink pencil: $3\frac{1}{2}$ in. long, 1s.; $4\frac{1}{2}$ in., 1s. 3d.; $5\frac{1}{2}$ in., 1s. 6d.; $6\frac{1}{2}$ in., 2s.; $7\frac{1}{2}$ in., 2s. 6d.; $9\frac{1}{2}$ in., 3s., and 11 in. 4s., per bundle; $3\frac{1}{2}$ in. Suspension Labels, including the pencil and a hank of copper wire, 1s. 6d. per bundle.

THE HORTICULTURAL WOODEN FLOWER STICKS, in bundles of 100: 11 in., 1s. 6d.; 17 in., 2s.; 22 in., 3s.; 28 in., 3s. 6d.; 34 in., 4s.; 40 in., 5s. 6d.; 46 in., 6s. 6d.; 54 in., 7s. 6d.; and 60 in., 8s. 6d. per bundle. If painted the prices are 2s. 6d., 3s., 4s., 4s. 6d., 5s. 6d., 7s. 6d., 8s. 6d., 9s. 6d., and 10s. 6d.

CHINESE CANE FLOWER STICKS, $3\frac{1}{2}$ feet long, 5s. 6d., and 7s. 6d. per 100. These are very elegant plant supports.

EYELET WALL NAILS. Single eye, 2s.; galvanised, 3s. per gross. Double eye, 3s.; galvanised, 4s. per gross.

PATENT MEDICATED SHREDS. To the amateur especially these will be a great boon, as it is said that their medicated properties are so obnoxious to insects, that these will avoid plants which have been fastened with them. We may also state that they are exceedingly durable. They are cut in slips of various sizes, and are sold—Smallest, No. 1, 6s. per 1,000 or 8d. per 100; No. 2, 7s. 6d. per 1,000 or 10d. per 100; No. 3, 9s. per 1,000 or 1s. per 100; No. 4, 11s. per 1,000 or 1s. 3d. per 100. Samples may be had free. An assorted box for amateurs, containing 600 assorted sizes, 3s. 6d.

ARTICLES USED TO PROTECT FROM SUN, FROST, AND BIRDS.

BRITAIN'S GARDEN NETTING, for protecting fruit-trees from frost. This fabric is unquestionably the best; it is also useful for shading purposes. No. 1, 10 yards long, 55 inches wide, per piece, 6s. 6d.; this is manufactured with cotton and wool. No. 2, 10 yards long, 55 inches wide, 7s. 6d., ditto; this is all wool. No. 3, 10 yards long, 55 inches wide, 9s. ditto; all wool, and heavier than No. 2.

FRIGI DOMO NETTING.—Manufactured from hair and wool; a perfect non-conductor; keeps a fixed temperature where it is applied. White, 2 yards wide and 4 yards wide; improved make, brown colour, 2 yards wide and 3 yards wide; either sort, 1s. per square yard.

TIFFANY.—A light, cheap, shading material for conservatories, greenhouses, &c.; can be stretched outside or inside of the glass. No. 1, 20 yards long by 38 inches wide; per piece, 6s. No. 2, the same as No. 1, but manufactured with a patent mineral solution, 7s. per piece. No. 3, double strength, 18 yards long by 36 inches wide, per piece, 8s. No. 4, treble strength, 18 yards long by 36 inches wide, per piece, 10s. No. 5, thick twilled, for mounting on rollers, 1s. 9d. per yard, 40 inches wide.

CANVAS SHADING.—This is manufactured from hemp, and much more durable than tiffany, but not so ornamental. No. 3, 34 inches wide, 7d. per yard run; this quality will be very useful where heavy shading is not required, also to protect trees and seed-beds against the depredations of birds. No. 10, 34 inches wide, 9d. per yard run, also manufactured from hemp; this will be found valuable as an intermediate quality of shading, between the thick twilled tiffany for roller blinds and the light tiffany.

TANNED NETTING, about 1 inch mesh. This is for protecting seed-beds, strawberries, and fruit-trees from the depredations of birds; about 2 yards wide, per yard run, 3d.

ARCHANGEL MATS, largest and best, 2s. each; 21s. per dozen.

CUBA BASS for tying, best quality, 3s. per lb.; small bundles, 1s. each.

NEW JAPANESE BASS OR FLAX for tying. We strongly recommend this; it is strong, and being very soft the most delicate specimens may be tied with it. 2s. per lb.; best quality, 3s. per lb.; small bundles, 1s. each.

VEGETABLE SEEDS FOR AUTUMN SOWING.

Peas, Beans, Carrots, Lettuce, Endive, Radish, Cucumber, Cauliflower, Turnip, Spinach, &c. Prices as quoted in Spring Catalogue.

PERENNIAL FLOWER SEEDS FOR AUTUMN SOWING.

Collections, 2s. 6d., 3s. 6d., 5s. 6d., 7s. 6d., 10s. 6d., 15s., 21s., and upwards.

ANNUALS FOR AUTUMN SOWING AND SPRING FLOWERING.

Collections, 2s. 6d., 3s. 6d., 5s. 6d., 7s. 6d., 10s. 6d., 15s., 21s., and upwards.

A FEW CHOICE SEEDS WHICH MAY BE SOWN IN AUTUMN.

PYRETHRUM, Golden Feather; this comes perfectly true from seed, and being one of the most useful bedding plants, and withal being perfectly hardy, it should be grown by every one. 1s. and 2s. 6d. per packet.

CARNATION, very choice, in sealed collections, 3s. 6d. and 1s.; mixed, 2s. 6d.

CALCEOLARIA, Barr's International, very choice, saved by Mr. James, 2s. 6d., 3s. 6d., and 5s. 6d. per packet.

CINERARIA, Barr's very choice, 2s. 6d. per packet.

PRIMULA, Barr's beautifully fringed red, 2s. 6d. per packet; white, 2s. 6d. per packet; mixed, 2s. 6d. per packet. Fern-leaved, mixed or in colours, 2s. 6d. per packet. *Magenta*, double; this comes true from seed; 2s. 6d., 3s. 6d., and 5s. 6d. per packet. Double white comes true from seed. Many other Primulas are quoted in our Spring Catalogue.

CHAMÆPSE DIACANTHA, a Thistle of extraordinary beauty, leaves and spines ivory white, margined with glossy green, and shaded with snow-white down, exceedingly picturesque in centres of beds, vases, &c. Fresh seed, 1s. and 2s. 6d. per packet.

ARALIA SIEBOLDII, fine sub-tropical plant, also a splendid plant for sitting-rooms, conservatories, &c. Fresh seed, 1s. and 2s. 6d. per packet.

CENTAUREA CANDIDISSIMA (*syn. rugosina*).—We offer English-saved seed of this most beautiful white foliage plant, 1s. and 2s. 6d. per packet.

PANSY, CLIVEDEN, yellow, purple, and white, or mixed, each 1s. and 2s. 6d. per packet.

VIOLA, SWEET SCENTED, in 6 var., 2s. 6d.; **VIOLA CALCARATA**, the darkest and earliest, 1s. per packet.

GRAYSON'S COVENT GARDEN PLANT ASPARAGUS.

SEA KALE ROOTS.—Per 100, 7s. 6d., 10s. 6d., and 12s. 6d. Extra strong, 15s.

RHUBARB ROOTS.—Linnaeus, Prince Albert, or Victoria, 9s. per dozen; 1s. each.

MUSHROOM SPAWN.—6s. per bushel.

BOOKS ON GARDENING.

ROBINSON'S GLEANINGS FROM FRENCH GARDENS, with numerous beautiful illustrations of desirable Plants. Price 6s.—This in its "got-up" is quite a drawing-room book; it is replete with valuable information, useful alike to the practical gardener and to the amateur, and contains a great deal that is suggestive in enhancing the beauty of our flower gardens, in improving our fruit culture, and in utilising and economising situations which are apt to be looked upon as not available. Amongst the subjects treated of and illustrated are the following:—Sub-tropical Gardening, and how its best features may be introduced with advantage; Hardy Plants, showing how a Flower Garden can be beautified with these alone; a description of how Floral Decorations are accomplished at Paris; the public Parks and Gardens of Paris; Culture of the Oleander and Orange Tree, by a Parisian; what the Cordon System of Fruit Culture is, and what its value is in relation to our wants; Asparagus Culture; Salads in Winter and Spring; a cheap way of erecting Trellises; the French Cloche, under which the French grow their Salads in Winter and Spring; the Ivy Edgings in Paris; an improved mode of Protecting Pits and Frames; a new and cheap method of building Garden Walls; a method of keeping Grapes throughout the Winter (illustrated); a description of Le Muetie, where the plants are grown which supply the Parks and Boulevards of Paris; with much more that is useful and interesting.

For remaining Books, see Order Sheet.
